Erica,

Interesting.

Ex. 5 Deliberative Process (DP)

You're right. This is a very good sample to get started with.

Thank you very much,

Andy

Subject: first sample

Erica,

What can you tell us about the first sample you sent us about a year ago?

Mark's getting ready to run the sample (in duplicate) to give us an idea of what we may see for the rest of the project.

Any information that you could share about where it is from (relative to the chemical plant) and what you suspect might be present would be helpful. Also, what concentrations range should we expect? I'm guessing this may be in the ug/L range or ppb. Maybe higher?

Please let us know what you can share.

Thank you very much,

Andy
